

# Appendix I

---

*Appendix I of the Activities Planned for 2003-2004 lists the Initial  
Environmental Evaluation/Environmental Assessments from  
October 1, 2002 - September 30, 2003*

1. Installation of an Observation Tower at Dome C Station, on the East Antarctica Plateau [PGAN0301.IEE]. Signed 10 October 2002
2. Sediment Coring in Five Lakes, McMurdo Dry Valleys, Antarctica [MCDV0301.IEE]. Signed 13 November 2002
3. Installation of a VLF Beacon Transmitter at South Pole Station for the Study of the Ionosphere over the Antarctic Continent [SPST0301.IEE]. Signed 11 October 2002
4. Develop Proof of Concept Traverse From McMurdo Station, Antarctica to the Geographic South Pole [PGAN0302.IEE]. Signed 15 October 2002
5. Amendment No. 1: Use of an Emergency Landing Area at Odell Glacier, Antarctica, [PGAN0203.AM1]; Signed 22 October 2002. Also filed with original IEE in FY02
6. Amendment No. 1: Establishment of a Deep Field Camp and Completion of Seismic Surveys at the Onset of Ice Stream D, West Antarctic Ice Sheet, Antarctica [PGAN0207.AM1]. Signed 4 December 2002. Also filed with original IEE in FY02
7. Contamination Site Remediation, Water Diversion and Contaminated Melt-water Containment at the Helicopter Refueling Facility, McMurdo Station, Antarctica [MCST0301.IEE]. Signed 29 April 2003
8. Establishment of Two Temporary Field Camps, the Beardmore Camp and Moody Nunatak Camp, for Consolidation of Logistical Support to Eight Science Investigations in the Beardmore Region of the Transantarctic Mountains [MCFC0401.IEE]. Signed 23 October 2003
